**IS IT RIGHT FOR YOU?  
The Turmeric Curcumin  
Evaluation Checklist for  
Those Who Want to  
Take Back Control**

Kendall E. Matthews

Over the past few years, I've started to fear that I'm not aging as gracefully as I hoped. I noticed this when one of my favorite snacks stopped digesting properly and my old football injuries affected me more when the weather changed. Thankfully, I have the resources to start addressing issues now before they become worse.

I worked with Dr. Dennis Clark to gather the research and information behind this checklist. It gives you an easy way to remember the 10 most important things to do before you buy Turmeric Curcumin supplements. As always consult the doctor who is helping you on your health journey.

*Kendall E. Matthews with  
Dr. Dennis Clark*

- Do you take OTC analgesics every day or too frequently?**
- Do you have frequent or constant joint pain?**
- Do you still feel an old injury when the weather changes?**
- Is your short-term memory not as effective as it once was?**
- Are you worried about LDL cholesterol and triglycerides?**
- Do you feel like you aren't digesting meals properly?**
- Taking statins? Sick of the side effects like muscle soreness and pain?**
- Are you experiencing more pain than you did when you were younger?**
- Is your blood pressure elevated?**
- Would you like something more natural to control the chronic inflammation that comes with aging?**

# Sick of Inflammation & Joint Pain?

I'll show you how Turmeric (*Curcuma longa*) may just be the most powerful herb on Earth. Although it is better known as the main spice in curry, its use in traditional medicine goes back at least 4,000 years (2011). It has been used as a treatment for dozens of health issues that span the entire body. Just click below to learn more and receive the full science-back report.
