FACTS ABOUT 360 VIRTUAL TOURS

- More engaging across media platforms - post tour links anywhere.

- Agents that use tours stand out from their peers.

- Partners can view tours even when they're in different cities.

- Buyers feel safer in the COVID-19 era.

- Easier to interact with clients of limited mobility.

I'm Clem Meunier "technology buff" who noticed a BIG problem.

The Real Estate and Rental Space professional is way too slow at using new technology - tech ***that closes sales!*** This is crazy to me, honestly, it drives me nuts so I'm doing something about and that is creating the ***solution*** for you!

THE BIG PROBLEM

Most Property Agents Don't Take Advantage of Digital Tech

Agents that are not part of big conglomerate agencies don't have the tech or the person within their agency to get the job done for them. They also don't always have the money or time to learn how. Agents need to balance their expense because not every month or quarter is a big one. And if COVID-19 ***taught us anything*** it's that we can't depend on the market always being active.

So if you don't have the resources in-house and don't want to spend the money on hardware, software and editing time then ***what do you do?***

YOU - Let me do it for you!

That's why I created the 360 Virtual Masters Agency. Get all the benefits of 360 Photography & Virtual Tours without all the cost and time!

Why you should let me do it!

Matterport, a leading 3D tour technology company, reported that properties that are marketed with virtual tours generate:

- 40% more clicks
- 95% more phone inquiries
- 65% more email inquiries
- 49% more qualified leads

You know the time is right - don't waste time or money. I'll build your tours - you focus on closing the sale!
