TSUUMI SOUND SYSTEM (Fi)

Folk roller coaster with a jazz twist

'One of Finnish most influential folk bands . I cannot imagine them getting any more tighter or more exciting. The energy is all there, plus an excellent combination of Finnish fiddle music with a rock steady rhythm section.'

- Highlights: BBC Live Sessions, Womex, Guinness Irish Fest, Montelago Celtic Fest, Helsinki Music House, Lotus Festival, Eurofonik, Victoria Theater, Viljandi Fest, Folkelarm, Malta World Music Fest, VEF Palace, Shetland Festival, MOI Stockholm, etc.

WOR (Be) Back to the 1780s

"Flemish-speaking Belgian band Wör have added invention to their brew. They are reviving forgotten tunes from the past. The drones, whether from the accordion or bagpipes, allow the airy tones of the saxophones to soar, and the entire band exuberantly locks into these rarely-heard rhythms with their earthy pulse."

- 2 albums (New album to be released in Fall 2020)
- Highlights: Festival Dranouter, Vienna Concert Hall, Theatre de Cornouaille, Sunfest, CA, Folk Holidays, Shetland Folk Fest, London Folk Festival, etc.

"For a decade, this young band from Quebec toured internationally under the name Les Poules à Colin (Europe, North America, Australia, Africa). They changed their name but the romantic ballads, gorgeous vocal harmonies, dancing tunes, fresh energy, are still there. The other face of Quebec's folk."
