25 Tips for Getting Your Restaurant's Takeout & Delivery Right

Fortunately, restaurants in most cities and states are being allowed / will be allowed to offer take-out & delivery. Even if operators have already offered take-out & delivery, it'll be a challenge to shift entire focus on what has previously been just a small percentage of business for most restaurants.

Well, take-out & delivery will be the new normal and the only chance of survival would be to view this as an opportunity, not only to survive but also to build an additional profit center for the future.
